I:0:44 What are you looking for?

P:0:50 Right now what I'm doing is I'm looking to see where this method is being called and what kind of file paths are being passed into it or if it's just being passed in from something the client types in

I:0:57 Why is that important?

Comment [BJ3]: Where is this method being called?

Comment [J4]: What kind of file paths can get passed in to this method?

Comment [BJ5]: What kind of file paths are being passed in?

Comment [J6]: Is the method being passed something the client types in?

Comment [BJ7]: Is the file path passed in from something the client types in?
